| 18 mm | RAL 3027 shape QE32 is produced in gloss and matte finishes | this shape cannot be patinated | |

MILLING (w x h)

standard

min. 90 x 82 mm
max. 1.250 x 2.500 mm

circular

min. 90 x 48 mm
max. 1.250 x 2.500 mm

R3 (QE32)

Note:

For classic opening door is recommended to keep the gap between the body and door 2 mm on the left and right side. We also recommend to use Blum hinges with opening angle of 100 or 110 degrees for loaded and loaded door. Following these two recommendations there is a problem with opening. For the control of the body and doors we recommend using the damping lenses Häfele.

When ordering QE32 shaped doors, always specify the total required height (including handles). The reduction in size by the handle height will occur automatically during the production preparation proces.

Handle specification:

material: aluminium | **surface:** dark brushed stainless steel

Handle not included (must be ordered separately).

We do not supply screws for the handle, we recommend 3.5 x 15 mm screws
The handle can be painted (comaxit) in 14 selected RAL shades in matt finish.
